

## **14K PEN PLATING SOLUTION - 10 ML**

**SKU:** 1742

This pen plating solution produces beautiful results in a much safer and environmentallyfriendly formula. Fast and easy to use with no fear of dangerous cyanide fumes. Pen plating allows for precise plating over small areas; highlights, setting prongs, individual chain loops, ring sections or bracelet parts. Pen plating is an easy way to get two and three colour designs. Pen-work requires technicians to be very close to the work surface. Make it a priority to protect yourself during this precision work and use our cyanide-free pen formulations.

## **PRODUCT DESCRIPTION**

This pen plating solution produces beautiful results in a much safer and environmentally-friendly formula. Fast and easy to use with no fear of dangerous cyanide fumes. Pen plating allows for precise plating over small areas; highlights, setting prongs, individual chain loops, ring sections or bracelet parts. Pen plating is an easy way to get two and three colour designs. Pen-work requires technicians to be very close to the work surface.
