

B1RL 14K GOLD PLATING SOLUTION 500 ML. EKO-LINE

SKU: 1741

500 ml. B1RL 14k Gold Plating Solution. TWL's powerful formula sized for your budget. Get started with Cyanide free plating risk-free! This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly method. Not just more reliable but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates – slower oxidisation! Unlimited shelf life! Even after months of use, it produces an unchanging colour.

PRODUCT DESCRIPTION

This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly formula. The days of cyanide based plating are over. Not just safer but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates – slower oxidisation! Unlimited shelf life! Even after months of use, it produces unchanging colour. Perfect for small jobs or repairwork. Does not plate cold – this 14k formula needs to be heated to reach the desired 14k colour.

ADDITIONAL INFORMATION

Weight

Dimensions $8 \times 6.5 \times 15 \text{ cm}$

Gold Content 0.2g

Anode Required Stainless Steel (at surface area ratio of 2:1 of anodic surface)

Suitable for Rack or Barrel plating

Bath Size 500ml to 2 litres

ph 7.5 – 8.5

Plating Temperature 45 – 50 degrees C (115 to 125 degrees F)

Rectifier Requirement DC; minimum 10v, minimum 3amps up to 10amps. Low Ripple.

Deposition Speed 0.15 micron in 40 seconds

Thickness up to 0.5 micron
