

B1RL 14K GOLD PLATING SOLUTION 500 ML. EKO-LINE

SKU: 1741

500 ml. B1RL 14k Gold Plating Solution. TWL's powerful formula sized for your budget. Get started with Cyanide free plating risk-free! This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly method. Not just more reliable but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates – slower oxidation! Unlimited shelf life! Even after months of use, it produces an unchanging colour.

PRODUCT DESCRIPTION

This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly formula. The days of cyanide based plating are over. Not just safer but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates – slower oxidation! Unlimited shelf life! Even after months of use, it produces unchanging colour. Perfect for small jobs or repair-work. Does not plate cold – this 14k formula needs to be heated to reach the desired 14k colour.

ADDITIONAL INFORMATION

Weight	0.6 kg
---------------	--------

Dimensions	8 × 6.5 × 15 cm
Gold Content	0.2g
Anode Required	Stainless Steel (at surface area ratio of 2:1 of anodic surface)
Suitable for	Rack or Barrel plating
Bath Size	500ml to 2 litres
ph	7.5 – 8.5
Plating Temperature	45 – 50 degrees C (115 to 125 degrees F)
Rectifier Requirement	DC; minimum 10v, minimum 3amps up to 10amps. Low Ripple.
Deposition Speed	0.15 micron in 40 seconds
Thickness	up to 0.5 micron
