

## **B1RL 14K GOLD PLATING SOLUTION - 1LITRE**

**SKU:** 1739

This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly formula. The days of cyanide-based plating are over. Not just safer but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates – slower oxidation!

Unlimited shelf life! Even after months of use, it produces unchanging colour. Perfect for small jobs or repair-work. Does not plate cold – this 14k formula needs to be heated to reach the desired 14k colour.
