

B1RL 14K GOLD PLATING SOLUTION - 1LITRE

SKU: 1739

This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly formula. The days of cyanide-based plating are over. Not just safer but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates – slower oxidisation!

Unlimited shelf life! Even after months of use, it produces unchanging colour. Perfect for small jobs or repair-work. Does not plate cold – this 14k formula needs to be heated to reach the desired 14k colour.

ADDITIONAL INFORMATION

Weight	1.1 kg
Dimensions	9 × 9 × 22 cm
Gold Content	0.7g
Anode Required	Stainless Steel (at surface area ratio of 2:1 anodic surface)
Suitable for	Rack or Barrel plating
Bath Size	500ml – 100 litres
ph	7.5 – 8.5
Plating Temperature	45-50 degrees C (115 – 125 degrees F)
Rectifier Requirement	DC; minimum 10v, minimum 3amps up to 50 amps. Low Ripple
Deposition Speed	0.15 micron in 30 seconds
Thickness	up to 1 micron
