

B1RL 24K GOLD PLATING SOLUTION (1 LITRE)

SKU: 1736

This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly formula. The days of cyanide-based plating are over. Not just safer but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates. Slower oxidation! Unlimited shelf life! Even after months of use, it produces an unchanging colour. This product works cold, perfect for small jobs or repair-work. No waiting for the plating to heat up.

PRODUCT DESCRIPTION

This cyanide-free plating formula produces beautiful results in a much safer and environmentally-friendly formula. The days of cyanide-based plating are over. Not just safer but a higher quality surface finish. Cyanide-free means higher corrosion resistance over silver or even brass substrates. Slower oxidation! Unlimited shelf life! Even after months of use, it produces an unchanging colour. This product works cold, perfect for small jobs or repair-work. No waiting for the plating to heat up.

ADDITIONAL INFORMATION

Weight	1.1 kg
Dimensions	9 × 9 × 22 cm
Gold Content	0.8g
Country of Origin	Turkey
Anode Required	Stainless Steel (at surface ratio of 2:1 of anodic surface)
Suitable For	Rack or Barrel plating
Bath Size	500ml – 100 Litres
PH	7.5 – 8.5
Plating Temperature	Room Temperature up to 45 degrees C (115 degrees F)
Rectifier Requirement	DC; minimum 10v; minimum 3amps up to 50amps. Low ripple.
Deposition Speed	0.15 micron in 30 seconds
Thickness	up to 1 micron
