

## **COOL PASTE AP**

**SKU:** 1713

Cool Paste Ap 120 ml; from Durston Tools. Cool Paste is used as a heat insulator acting as a protective layer, therefore allowing the stone to stay in place whilst undertaking the solder. This is a very useful method because the process is fast, convenient and straightforward, meaning effortless results are achieved.

## **PRODUCT DESCRIPTION**

Cool Paste is used as a heat insulator acting as a protective layer, therefore allowing the stone to stay in place whilst undertaking the solder. This is a very useful method because the process is fast, convenient and straightforward, meaning effortless results are achieved. 120 ml.
