Polishing Compound - Dialux White from Durston Tools. Dialux White Metal & Plastic Finishing Compound is for the preparation and polishing of steel, stainless silver, grey and white gold and platinum. Dialux White is specially formulated for fine polishing and finishing using cotton buffs for brightening STV/MOC2.

PRODUCT DESCRIPTION

Dialux White Metal & Plastic Finishing Compound is for the preparation and polishing of steel, stainless silver, grey and white gold and platinum. Dialux White is specially formulated for fine polishing and finishing using cotton buffs for brightening STV/MOC2 and has a grit of 0.3. The compound is 80mm long with a diameter of 30mm and weighs 110 grams. Dialux is the world's number one compound brand for jewellery polishing. We provide individually packed Dialux branded boxes, and the compound adheres well to mops and buffs to bring a perfect finish. It provides an excellent price to performance ratio and is our recommended polishing compound to go with Durston's tools and polishing machinery.
