

DURSTON 3RD HAND SOLDERING STATION

SKU: 2078

Introducing the **Durston 3rd Hand Rotating Soldering Station** - a revolutionary tool designed to make intricate soldering tasks effortless and precise. Crafted with the jewellery maker's needs in mind, this station is a must-have for professionals seeking both quality and convenience.

- **Versatility at Your Fingertips:** Equipped with two 3-joint third-hands, the Durston 3rd Hand Soldering Station offers unparalleled flexibility. Twist, rotate, and bend in any direction to hold your piece securely in the exact position required.
 - **Rotating Platform:** The innovative rotating platform adds an extra layer of convenience, allowing you to access different angles without having to reposition your workpiece.
 - **Heat Resistant Jaws:** With jaws designed to withstand temperatures of up to 316°C (600°F), you can solder with confidence, knowing your piece is securely clamped.
 - **Environmentally Friendly Ceramic Soldering Platform:** The 150mm square soldering table is made from a removable ceramic-type material and is suitable for maximum temperatures, ensuring a safe, efficient, and environmentally friendly working environment.
