

DURSTON CURVED SHEAR 180MM

SKU: 1773

These Curved Blade Shears with a full length of 180mm are ideal for cutting clean patterns into thinner metal sheet or pieces of solder. Suitable for cutting up to 26 gauge (0.45mm) of non-ferrous metal.

- **Micro-serrated Edge:** The one-sided micro-serrated blade edge guarantees precise cuts while offering an enhanced grip on materials, ensuring every cut is clean and controlled.
- **Ideal For Thin Metal:** Perfectly designed for cutting up to 26 gauge (0.45mm) of non-ferrous metal, making it a go-to tool for delicate metalwork.
- **Ergonomic Design:** The ergonomic handles married with poly construction not only provide a comfortable grip but significantly reduce hand fatigue during prolonged use.
- **Curved Blade Advantage:** The curved blade design facilitates smooth, clean pattern cutting, elevating your metal crafting projects.

PRODUCT DESCRIPTION

These Curved Blade Shears with a full length of 180mm are ideal for cutting clean patterns into thinner metal sheet or pieces of solder. Suitable for cutting up to 26 gauge (0.45mm) of non-ferrous metal.

The ergonomic handles provide a comfortable grip, allowing you to work longer and reduce hand fatigue. Durston Curved Blade Shears are created with poly handles for increased comfort.
