

PROFESSIONAL JEWELLER'S CHAIR - FACTORY SPECIAL

SKU: 1863

Factory Special - The back of the chair has marks due to parts touching inside the carton.

Professional Jeweller's Chair from Durston Tools. Durston Tools' work chairs are the perfect partner for your project. The Professional Jeweller's Chair is ergonomically designed with the jeweller in mind to give effective support to your back and thigh. The high grade moulded seat ensures durability, as well as comfort and style and, in fact, this professional chair, carries an eight-hour sit certification. The seat has a flexible lift height ranging from 48cm to 57cm and, in addition, it has a tilt and rock position or the position can be fixed. The wheels ensure you can deploy the chair quickly and easily whatever you are doing.

PRODUCT DESCRIPTION

Durston's work chairs are the perfect partner for your project. The Professional Jeweller's Chair is ergonomically designed with the jeweller in mind to give effective support to your back and thigh. The high grade moulded seat ensures durability as well as comfort and style and, in fact this professional chair carries an eight-hour sit certification. The seat has a flexible lift height ranging from 48cm to 57cm and, in addition, it has a tilt and rock position or the position can be fixed. The wheels ensure you can deploy the chair quickly and easily whatever you are doing. The Professional Jeweller's Chair is part of Durston's award-winning range of products available since 1961.
