PRODUCT DESCRIPTION

Durston Lubrication stands in a league of its own when it comes to tool lubricants for jewellery-making. While it may seem similar to other products on the surface, what sets it apart is the exceptional results it delivers. Whether you're using Durston's Jump Ring Maker, disc cutters, or engaging in sawing, this lubricant ensures a smooth, efficient operation. Its easy-to-apply nature means you can skip the post-cut cleaning and get right back to crafting.

Designed to give your tools a longer life and you superior results, Durston Lubrication is the only choice for

professionals who demand the best but don't want to pay a premium for it.
