

DURSTON PROFESSIONAL BEVEL END SEMI-FLUSH CUTTER 115MM

SKU: 1792

- Bevel End Flush Cutters 115mm
- Laser precision edges
- Superior Lap Joint Construction
- Fast, strong rebound for enhanced productivity
- Ergonomic handles for a comfortable grip
- Part of the Durston Professional Range of Pliers & Cutters

PRODUCT DESCRIPTION

These Bevel End Flush Cutters are manufactured with laser precision edges that provide seamless, repeatable cuts. The bevel ends are created with finer jaws and smaller heads with a pronounced taper to enhance access to fine details. The jaws are manufactured with the cutting blades perpendicular to the handles to provide more leverage and access to flat surfaces.

These cutters are created with a lap joint, where one half of the joint overlaps the other with a screw set through both halves. This screw allows the joint to be adjusted as required.

The double-leaf spring consists of flat, tempered metal tabs attached to the inside of each of the tool handles, positioned to meet and hold the handles apart (and the jaws open) until they are squeezed closed, delivering a fast, strong rebound for enhanced productivity.

The ergonomic handles provide a comfortable grip, allowing you to work longer and reduce hand fatigue. Durston Bevel End Flush Cutters are created with poly handles for increased comfort.

Jaw style : Bevel End

Jaw length : 12mm

Handle length : 89mm

Overall length/dimensions : 115mm

Max. cutting capacity : 0.8mm Non Ferrous Metals
