- Round Nose Plier 115mm
 - Laser precision edges
 - Superior Lap Joint Construction
 - Fast, strong rebound for enhanced productivity
 - Ergonomic handles for a comfortable grip
 - Part of the Durston Professional Range of Pliers & Cutters
-

PRODUCT DESCRIPTION

These Round Nose Pliers are manufactured with laser precision edges that provide seamless, repeatable bends in both metal and wire. Both jaws are round and taper from the pivot to the tip; they are ideal for creating clasps, jump rings, curved bends and coils.

These pliers are created with a lap joint, where one half of the joint overlaps the other with a screw set through both halves. This screw allows the joint to be adjusted as required.

The double-leaf spring consists of flat, tempered metal tabs attached to the inside of each of the tool handles, positioned to meet and hold the handles apart (and the jaws open) until they are squeezed closed, delivering a fast, strong rebound for enhanced productivity.

The ergonomic handles provide a comfortable grip, allowing you to work longer and reduce hand fatigue. Durston Round Nose Pliers are created with poly handles for increased comfort.

Jaw style : Round-nose

Jaw length : 23mm

Tip width : 0.8mm

Handle length : 89mm

Overall length/dimensions :115mm
