

DURSTON SCISSOR SHEAR 180MM

SKU: 1775

Light-duty Scissor Shears with a full length of 180mm are perfect for intricate work, specifically for trimming fine wires, solder pieces and fine gauges of non-ferrous metals.

- **Micro-serrated Edge:** The micro-serrations along one blade ensure a firm grip on materials for precise, controlled cuts every time.
 - **Scissor-like Design:** The scissor-like form provides a familiar grip, ensuring precise trimming and cutting of fine materials with ease.
 - **Robust Construction:** Built sturdy to withstand the demands of cutting sheet metals, ensuring longevity and consistent performance.
 - **Dual Gauge Cutting:** Versatile in action, capable of cutting up to 16 gauge (1.6mm) and as fine as 26 gauge (0.45mm) of non-ferrous metals.
 - **Hardened Material:** Constructed with hard and strong material to withstand normal use without succumbing to nicks or misshaping.

PRODUCT DESCRIPTION

Light-duty Scissor Shears with a full length of 180mm are perfect for intricate work, specifically for trimming fine wires, solder pieces and fine gauges of non-ferrous metals.

These shears are formed like scissors with a sturdy construction which is perfect for cutting sheet metals. These shears can cut up to 16 gauge (1.6mm) of non-ferrous metals. These shears are made with hard and strong

material to prevent nicks and becoming misshapen with normal use. Suitable for cutting up to 26 gauge (0.45mm).
