

FSM130 DOUBLE

SKU: 1080

Powered Rolling Mill - FSM130 - Double Sided from Durston Tools. Durston Tools is the market leader in precision rolling mills and no wonder; the FSM 130 Double-Sided Powered Rolling Mill is constructed from cast iron for optimal strength and rigidity. This mill is a floor standing mill and has lubrication on the roll bearings. The 1.1 KW motor is sturdy enough for continuous operation, which is why Durston Tools mills have such a long working life. This versatile package has variable speeds with forward and reverse and a highly efficient near silent operation.

PRODUCT DESCRIPTION

Durston is the market leader in precision rolling mills and no wonder; the FSM 130 Double-Sided Powered Rolling Mill is constructed from cast iron for optimal strength and rigidity. This mill is a floor standing mill and has lubrication on the roll bearings. The 1.1 KW motor is sturdy enough for continuous operation, which is why Durston mills have such a long working life. This versatile package has variable speeds with forward and reverse and a highly efficient near silent operation. The rolls are specially induction hardened to 64 RC (the right barrel provides a large flat rolling service of 130mm on rollers with a diameter of 65mm, offering a maximum roll thickness of 14mm) ensuring your rolls last a lifetime. The right-hand barrels are dedicated to square wire forming and offer 19 grooves ranging from 7mm to 1mm. A set of extension rollers provide a total of four half-rounds; 4, 3, 2 and 1.5mm. Optional extras include digital roll gap metre and work lights.

ADDITIONAL INFORMATION

Weight	600 kg
Dimensions	170 × 170 × 160 cm
Product Weight (kg)	390KG
Product Length (mm)	1040
Product Width (mm)	450
Product Height (mm)	1210
Number of Grooves	19
Max. Sheet Thickness (mm)	14
Roller Type	Combination
Roller diameter (mm)	65
Roller Length (mm)	130
Side Extensions	2 & 1.5mm, 3, 4
Max. wire capacity (mm)	7mm
