## **PRODUCT DESCRIPTION**

Durston introduces the HOBBY 80 Rolling Mill, designed to provide reliable performance and longevity at an affordable price. This mill is a testament to Durston's commitment to quality, ensuring that even entry-level products meet the highest standards.

Seamlessly fitting into Durston Tools' esteemed lineup, the HOBBY 80 Rolling Mill is designed to meet the jeweller's specific needs for rolling wire. This versatile tool, when equipped with the additional optional roller, can produce D-shaped and triangular profiles with exceptional precision, ensuring efficiency and reliability in high-quality jewellery production. As standard, the HOBBY 80 is equipped exclusively with flat rolls.

As the world's foremost manufacturer of rolling mills, Durston's mills are recognised globally for their reliability, incredibly robust construction, and build quality. The HOBBY 80 rolling mill is no exception and has been manufactured in a one-piece cast iron construction for optimal strength and rigidity. It is compact but still with everything you need and has precision-hardened and ground rolls to 64RC. It has maintenance-free bearings and large, easy-to-read calibrated discs.

The HOBBY 80 Rolling Mill, a revolutionary tool that combines affordability with the trusted quality of Durston. Perfect for jewellers, hobbyists, and artists, this mill is set to become an indispensable part of your creative toolkit.

Experience quality at an accessible price. Join the Durston family and take your jewellery-making to the next level with the HOBBY 80 Rolling Mill. Get ready to be amazed!
