 - 130mm Flat Rolling Area
 - Adjustable Roll Heat from 10°C to 140°C in 1°C Increments
 - Total Roll Width 130mm
-

PRODUCT DESCRIPTION

The HR130 Power Rolling Mill from Durston Tools offers advanced functionality with heated rolls for more precise control over your rolling tasks. The rolls, exclusively flat with a width of 130mm, can be heated up to 140°C, adjustable in 1°C increments. As with all Durston Tools' powered mills, this model features variable speeds in forward and reverse. The 1.1KW 110 or 240-volt motor provides consistent power throughout the lifetime of the mill. Digitally controlled variable speeds from 5 to 20 RPM give you complete control over each roll.

Durston Tools' HR130 Power Rolling Mill delivers the same quality and performance you expect from Durston Tools' powered mills, but with the added benefit of heated rolls for enhanced precision. Cost savings are made by incorporating one central emergency stop button.

The HR130 upholds the same standards of production and manufacturing as the rest of the Durston Tools range, ensuring reliable and high-quality performance.

ADDITIONAL INFORMATION

Weight	160 kg
Dimensions	60 × 80 × 64 cm
Product Weight (kg)	110KG
Product Length (mm)	500
Product Width (mm)	390
