

JEWELLERS SOLDERING BUNDLE

SKU: 2253

Our Jewellers Soldering Bundle brings together essential tools for high-quality soldering, offering a 10% discount when purchased together. This bundle brings together essential tools for top-notch soldering. From the 3rd Hand Soldering Station for stability to the high-temp resistant Soldering Boards, this kit has it all. The Jewellers Blow Torch and Bent Nose Pliers offer precision, while the Titanium Soldering Probes and Borax Cones add the finishing touches. The addition of a Soldering Wig makes this bundle even more comprehensive.

- **Durston 3rd Hand Soldering Station:** Provides stability and precision, essential for intricate soldering tasks.
 - **Jewellers Blow Torch:** Features an adjustable flame and electronic ignition system for a max temperature of 1300°C.
 - **Durston Professional Bent Nose Plier:** Designed with laser precision edges and ergonomic handles for a comfortable grip.
 - **Set of 3 Titanium Soldering Probes:** High-quality titanium tips prevent metal bonding and melting of the probe.
 - **Soldering Boards:** Made from insulating and heat-reflective vermiculite, resistant up to 1,100 degrees Celsius.
 - **Borax Cones:** Dry form of flux, essential for maintaining joints during soldering.
 - **Soldering Wig:** Used as a surface on which to solder and support.
-
