Includes Desk Mount Clamp (max 55mm)

PRODUCT DESCRIPTION

Durston's range of Jeweller's lamps is the perfect partner for your projects. The Magnifier Lamp offers professional-level magnification with a long-lasting LED light source. Sixty of the latest design SMD LED lights to give 1200 lumen and full bright white light at 6000K from just 14 watts, while four-stage dimming caters for all worktop lighting requirements. Where the magnifier lamp is smart is with its easy-change lens, offering a five diopter magnification at 225% with a 20-centimetre focal length - so an excellent operating distance from the workpiece - plus an eight diopter magnification at 300%, giving the superb ability for close up inspection or fine detail work. The fully flexible arm means you can position the lamp exactly where you need it. As an optional extra, there's a weighted desk mount base available, adding more flexibility. The dual-voltage unit is available with a UK, EU or USA Plug. The Magnifier Lamp - part of Durston's award-winning range of products, available since 1961.
