PRODUCT DESCRIPTION

The Master HPL Jeweller's Bench is designed with a balance of form and function. Its High-Pressure Laminate (HPL) worktop is resilient and easy to clean, suited for daily use. The bench provides ample storage with a large pull-out drawer, a centre drawer with a removable stainless steel tray, and an additional pull-out tray. A pull-out soldering tray and removable bench peg add to its functionality. All housed within a sturdy hardwood frame, this bench is a solid reliable partner for your workshop, designed to last a lifetime.

About HPL (High-Pressure Laminate):

High-Pressure Laminate (HPL) is a highly durable material, known for its strength and ability to resist wear, making it an ideal choice for worktops in demanding environments like jewellery making. HPL is manufactured under high pressure and temperature, binding layers of laminate into a solid core. Its surface is not only tough but also easy to clean, making maintenance a breeze. Moreover, HPL offers a sleek and modern aesthetic, elevating the workspace while providing a reliable surface for intricate crafting tasks.

Durstons Benches Quality

Durstons Tools Benches are unrivalled on quality and design and are known worldwide for being the best on the market. Our benches are designed and built to last a lifetime with responsibly sourced materials and are made by highly skilled craftsmen.

Be aware of cheaper alternatives and copies available online that are made with unreliably sourced materials and a lower standard of finish. Buy Once. Buy a Durston.
