

RING SHANK BENDER - 11 PIECE

SKU: 1313

Durston's 11 Piece Ring Shank Bender delivers professional-grade performance with eleven hardened steel dies (8-24mm round, square, and rhombus) and matching Delrin dies, capable of bending metals up to 2mm thick with ease.

Designed for use in a vice or secured to a workbench, this tool offers maximum versatility. The die-cast base ensures all components are stored securely, with a double-stacked tray for easy access and organisation.

PRODUCT DESCRIPTION

Unmatched Flexibility and Performance

The 11 Piece Ring Shank Bender from Durston is crafted for professionals who demand precision, durability, and versatility. This comprehensive set includes eleven dies: nine round (8, 10, 12, 14, 16, 18, 20, 22 & 24mm), one square, and one rhombus, giving you the freedom to work with a wide variety of shapes and sizes. Each die is hardened to 55 HRC in Durston's state-of-the-art facility, ensuring top-tier performance and long-lasting durability.

Precision for Every Metal Type

Designed to bend metals up to 2mm thick, with potential for thicker materials depending on the metal and width, this tool handles both tough and delicate projects with ease. Every post is paired with both steel and Delrin dies, providing the perfect combination for bending precision while reducing the risk of marking on softer materials.

Organised Storage and Workspace Flexibility

The durable metal die-cast base is built for efficient storage, allowing you to keep all components securely

housed when not in use. For workspace flexibility, the 11 Piece Ring Shank Bender can be secured to a workbench or mounted in a vice, ensuring stability and convenience in any setup. Durston's superior craftsmanship guarantees reliability and performance, far surpassing cheaper alternatives. **Buy once, buy a Durston.**
