

STEEL ANVIL AND BENCH PEG

SKU: 1821

Our Steel Anvil and Bench Peg are created from top quality hardwood and precision ground, hardened tool steel.

PRODUCT DESCRIPTION

Our Steel Anvil and Bench Peg are created from top quality hardwood and precision ground, hardened tool steel. Multi-functional and versatile, the bench peg will support your pieces whilst sawing, drilling, filing and sanding, whereas the heavy-duty steel anvil is perfect for metal forming. Care should be taken to keep the anvil surface clean, as any marks will be transferred to the surface of the formed metal.
