

THE QUAD JUMP RING FORMER

SKU: 1312

The Quad Ringer from Durston is a time-saving tool for professionals worldwide. The Quad Ringer will cut up to a 100mm length of jump rings.

This will suit both the Dremel Fortiflex and Foredom number 30 hand piece. The mandrels provided are from 2.5mm to 12mm in 0.5mm steps.

PRODUCT DESCRIPTION

The Quad Ringer from Durston is a time-saving tool for professionals worldwide. The Quad Ringer will cut up to a 100mm length of jump rings. Durston's legendary attention to detail in every aspect of the design sees a Coil holder with four sides, giving incredible flexibility – making it easy to cut a wide range of coils. The set comes complete with 20 plated mandrels, ranging from 2.5mm to 12mm. The high stem coiler gives more room for your hands with a good, full-sized handle. It can be mounted to a bench or held in a vice and includes a keyless chuck for ease of use. The flex shaft holder offers real flexibility, suiting both a Dremel or Foredom handpiece and the kit includes everything you need to get started; Durston Lubricant, a blade and two different sizes of Allen keys. The Quad Ringer – part of Durston's award-winning range of products, available since 1961. Find out how to use it in our blog post.
