SKU: 1215

This tube cutter allows for any length of tube to be cut many times, the tube stop can be adjusted to your required length. This is a precision made and solid tool that has been built to last you many years.

PRODUCT DESCRIPTION

This tube cutter allows for any length of tube to be cut many times, the tube stop can be adjusted to your required length. This is a precision made and solid tool that has been built to last you many years.

To operate: Adjust the tube stop to the length required. Raise the lever and pass the tube along the 'V' until it reaches the tube stop. The point at which the tube is to be cut should be in line with the gap. Allow the lever to rest on the tube and secure with your thumb. Using the gap as a guide for the blade, cut the tube. The maximum tube size this will cut measures approximately 4.5mm.
