PRODUCT DESCRIPTION

The Durston Wax Worker Pro. The perfect wax working tool for professional or home users, heats up to 170c in a matter of seconds with easy to use controls for temperature and an LCD touch screen with on/off function to allow easy and quick tip changes, The LCD screen displays the current temperature and the desired / set temperature.

The Wax Worker pen is easy and comfortable to hold with a 100cm cord. Use the touch screen on/off function to

easily change tips (using pliers) while still hot to avoid surplus wax setting and damaging the pen on removal.

The Wax Worker Pro includes a set of 8 tip types, each tip comes with a tip spring tightener.

- Taper Tip x 1
- Taper Bent Tip x 1
- Flat Tip x 1
- Spade Tip x 1
- Large Spoon Tip x 1
- Large Flat Tip x 1
- Arrow Tip x 1
- Knife Tip x 1
